GREAT BATTLE AT ARRAS MAY DECIDE THE FATE OF FRANCE

RUSSIAN DEFEAT IN GALICIA BECOMES A ROUT

London Admits That Only a Master Stroke by Grand Duke Nicholas Can Now Save Lemberg.

CZAR'S TROOPS FIGHT TO SAVE THEIR GUNS

As Galician Capital Totters Germans Mass Their Forces for Yet More Important Blow at Russia.

(By Evening Herald Leased Wire) London, June 22, (12:05 p.m.)—Nothing but a sudden and unexpected blow by Grand Duke Nicholas, commander in chief of the Russian forces in the field can now save Lemberg, Galicia, and are now fighting for time in order to save their guns and other material.

Dunkirk on the French coast was bombarded yesterday by a long range German gun, as was done several weeks ago.

Four more vessels have been sunk by submarines and in the case of one of them—the British steamer Carisbrook—thirteen men of the crew are unaccounted for. The Carisbrook, which was engaged in trans-Atlantic trade, was sunk by gunfire from a German submarine. A large Turkish steamer and two Turkish sailing vessels were torpedoed in the Black sea by Russian submarines.

A press dispatch from Athens reports great activity of the allied fleet at the Dardanelles. Fighting on Gallipoli peninsula is going on vigorously, with effective movements on the part of both the Turks and allies, but neither has been able to break the deadlock. The Turks made an attack last Wednesday but are said to have been repulsed, 700 men being captured.

On the other hand the Germans in North Russia and Poland are busy consolidating their gains in a manner which suggests more important movements in these regions. The seaport of Libau is strongly fortified. Heavy naval guns have been installed and Prince Henry of Prussia, who was recently there, is credited with the statement that the Germans intend to retain possession of Libau at all costs as they regard this port to be the key to the Baltic.

RUSSIANS NOW FIGHTING TO SAVE THEIR GUNS

Berlin, June 22, (via London, 1:15 p.m.)—Announcement made today by the Overseas News agency says that the Russians before Lemberg have been defeated along their whole line and are fighting only to gain time in order to save their artillery and other war material.

The Germans and Austrians are within ten miles of Lemberg," the announcement adds. "The main positions of the Russians are shelled by the armies of Generals Mackensen, Lindner, Boehm-Ernst, Pflanzer and Woyrwick."

PETROGRAD ADMITS STRUGGLE IN GALICIA LOST

Petrograd, June 22, (12 noon, via London, 4:30 p.m.)—With the Russians opposing their Austro-German antagonists on a line six miles from Lemberg, according to the most recent information reaching Petrograd, it is officially considered here that the evacuation of the Galician capital cannot now be avoided without a sacrifice of men out of proportion to the strategic importance of the place. The evacuation of Lemberg as a base already has been accomplished in good order. The hospitals and the government institutions have been removed.

The Russian positions before the city, consisting of a comprehensive system of trenches and entanglements are well calculated to make the victory of the German allies costly.

To the north the Austro-Germans are reaching positions evacuated by them in September on the roads to Riga, Rusek and Tomaszow, seemingly intent upon capturing Tarnow, the railroad junction which controls communication between Lemberg and Russia.

GERMANY ADMITS TRANSFER OF ALSACE POSITIONS

Berlin, June 22, (via London, 4 p.m.)—The official announcement from army headquarters today reports heavy fighting along the Fecht river in Alsace, where considerable gains have been claimed recently by the French. The announcement says:

"We have transferred our positions to the east bank of the Fecht."

DUNKIRK AGAIN SUBJECTED TO GERMAN BOMBARDMENT

Paris, June 22, (2:37 p.m.)—The French war office this afternoon gave out a statement on the progress of hostilities which reads:

"The seaport of Dunkirk was bombarded last night by a piece of long range artillery. Fourteen shells were thrown and some persons belonging to the civil population were killed."

BRITISH STEAMER CARISBROOK AND HALF OF CREW LOST

London, June 22, (12:40 p.m.)—The British steamer Carisbrook of Glasgow, from Montreal for Leith, Scotland, was sunk by gunfire from a

Today's War Summary

(By Evening Herald Leased Wire)

Wireless dispatches from Berlin represent the battle which has been in progress for some time in the vicinity of Arras, northern France, one of the great conflicts of the war, which may decide the fate of France. Losses of both the Germans and the allies are described as fearful and one stretch of the field from Arras, eight miles toward the Belgian border, is said to be covered with corpses. The official French and German statements of today give few details of this battle.

In Alsace there was heavy fighting along the valley of the Fecht river, and the French assert their lines were pushed further northward. The Berlin communication says the German positions were transferred to the eastern bank of the river.

An unofficial message from Berlin says the Russians have been defeated all along their line in front of Lemberg, Galicia, and are now fighting for time in order to save their guns and other material.

Dunkirk on the French coast was bombarded yesterday by a long range German gun, as was done several weeks ago.

Four more vessels have been sunk by submarines and in the case of one of them—the British steamer Carisbrook—thirteen men of the crew are unaccounted for. The Carisbrook, which was engaged in trans-Atlantic trade, was sunk by gunfire from a German submarine. Fighting on Gallipoli peninsula is going on vigorously, with effective movements on the part of both the Turks and allies, but neither has been able to break the deadlock. The Turks made an attack last Wednesday but are said to have been repulsed, 700 men being captured.

Advices from Austro-Hungarian headquarters in Galicia attribute the recent decided successes of the Austro-German forces to their great superiority in artillery. The fall of Lemberg is expected in a day or two. An official statement from Petrograd concedes the Russian retirement from the Grodke lakes, west of Lemberg. On the Dniester it is said the Austrians were driven back from two villages with heavy losses and on the remainder of the front they have made no further progress.

The battle of Plava on the Isonzo front is still in progress the Austrians making repeated efforts to drive back the Italians across the river. An official communication from Rome says these attempts have failed. Elsewhere along the Isonzo front less important engagements are occurring with small successes claimed by the Italians.

England, June 22, (5:59 p.m.)—An order in council is about to be issued prohibiting exportation of all goods to Holland, except those consigned to the Netherlands overseas trust. This is expected to stop the trade now believed to be passing through Holland to Germany.

The new note which the United States will send to Germany on the case of the American steamer White Star Line is about ready and probably will be dispatched before the president leaves for the summer White House tomorrow night.

CHINET CONSIDERS NEITHER GERMANY NOR RUSSIA

Washington, June 22.—The cabinet was in session today less than an hour. Neither the Mexican nor European situations were touched upon. President Wilson did not bring up the subject of abolishing a secretariat of state. The indications today are that he will name Robert Lansing.

ENGLAND HOPES TO CHECK LEAK THROUGH HOLLAND

London, June 22, (5:59 p.m.)—An order in council is about to be issued prohibiting exportation of all goods to Holland, except those consigned to the Netherlands overseas trust. This is expected to stop the trade now believed to be passing through Holland to Germany.

Exports of goods to the Netherlands overseas trust would be equivalent to a guarantee that no goods either in the form received or in a subsequent form, would reach a country hostile to Great Britain.

Captain Prettman made the announcement to this effect was made in the house of commons today by Captain E. G. Prettman, parliamentary under-secretary to the board of trade.

Eleven members of her crew were saved. Thirteen are as yet unaccounted for.

The Carisbrook was 200 feet long and of 2,222 gross tons. She was built at Sunderland in 1907.

GERMAN REPORT SAYS FRENCH LOSSES AWFUL

Berlin, June 22, (by Wireless) (via London)—The Overseas News agency today gave out the following:

"Reports from Dutch sources state that the French losses are fearful. The hospitals at Amiens and Abbeville are overcrowded. The constant arrival of trains with wounded adds to the confusion and it is impossible to give the usual care to the wounded."

"Soldiers write that from Arras to Soissons (about eight miles) the field is covered with corpses and that the odor is unbearable."

"The losses on both sides are fearful."

Serbs Honor Lipton.

Nish, Serbia, June 22.—Sir Thomas Lipton has been made a grand commander of the Order of Saint Sava. This is the highest Serbian decoration ever conferred on a foreigner. The order is granted for services in education, science, art, or literature.

SPANISH CABINET QUIT WHEN LOAN REFUSED BY PUBLIC

Madrid, Spain, June 22.—The Spanish cabinet resigned today, the government considering the failure of the recent loan to be equivalent to a vote of a lack of confidence.

"The seaport of Dunkirk was bombarded last night by a piece of long range artillery. Fourteen shells were thrown and some persons belonging to the civil population were killed."

Indianapolis, June 22.—Thomas Taggart, Democratic national committeeman for Indiana; Mayor Joseph E. Bell, Chief of Police Samuel V. Perrott and 125 others were indicted by the Marion county grand jury here today, charged with conspiracy to commit a felony through violation of election laws, bribery and blackmail. Taggart and Bell were the first to acknowledge service in the case. Taggart was released on \$5,000 bond and Bell on \$10,000.

More than a dozen of Mayor Bell's family were indicted and as many more members of the police force were named. The others indicted included election officials, ward and precinct leaders, workers at the polls and voters.

William T. Brown, clerk of the board of county commissioners,

Robert's connection with Indianapolis politics was touched upon during the trial in the federal court, when he was convicted and sentenced to six years in the federal prison. Several witnesses mentioned the alleged fact that Robert's had sent repeaters to Indianapolis from Terre Haute to work during the election.

The charges are based on the election of November 2, 1914, the registration of last September and October and the primaries of May 5, 1914.

All the men—Democrats, Republicans and Progressives—are named in a single indictment which contains 48 counts. The main charge is conspiracy to commit felonies by corrupting the election, by violation of the primary law, the registration laws and by bribery and blackmail. Included among those indicted are said to be a number of primary, registration and election officials.

Dennis Bush, street commissioner, Edward Lyons, democratic candidate for county treasurer.

Dr. John W. Stius, Republican, and former superintendent of the city hospital.

Tom M. Roberts, former mayor of Terre Haute, who was convicted in the election fraud trial in federal court here recently.

Information thus far received indicates that about 75 men remain at large in the state right. He charged that the Yaquis were buying their ammunition in the United States.

General Leyva discounted any possibility of a conference with Yaqui chiefs. They never permit foreign emissaries in their presence, he declared, and, besides, have "all the treachery and bloodthirstiness of Apaches." The Mexicans thus far killed he described as having been horribly mutilated, and he said that crocodiles just harvested had been carried away by the Indians as provisions for future raids.

Land communication with the border, General Leyva said, would be lost because the railroad was inoperative during the period of heavy rains.

Information thus far received indicates that about 75 men remain at the normal American settlement of 200 around Esperanza, 50 miles south east of Guaymas. About 5,000 acres are still under cultivation against a normal cultivated acreage of 25,000. American holdings in the Yaqui valley amount to 50,000 acres, mostly in the name of the Richardson Construction company, a Mexican corporation whose bonds are held by Americans. Harry Payne Whitney and John Hayes Hammond, both of New York, are said to be the principal bondholders.

Mexicans in the valley now are concentrated in a few towns and are afraid to operate against the Yaquis.

A large band of Yaquis appeared 12 miles from the Southern Pacific Railroad of Mexico's shops at Empalme last night but were not in sight today.

The attack on a Southern Pacific work train near Jorl, reported yesterday, was made from fortifications which the Indians built in a brick
